SECTION I: MATTERS FOR DEBATE AND DECISION

14.0 SIR SAMUEL GRIFFITH LECTURESHIPS

14.1 Griffith University is committed to supporting its staff in the early stages of their academic careers and understands the challenges faced by new scholars. The Sir Samuel Griffith Lectureship Program is designed to enhance the career success of early career academics.

14.2 This program is designed for full-time academic staff at levels A and B during the first two years of their appointment. It provides targeted support, mentoring, encouragement and guidance from senior colleagues and successful scholars.

14.3 The key features of the program include:
- a reduced teaching load in the first two years of appointment
- localised mentoring and support arrangements
- a welcome event hosted by the Vice Chancellor
- a forum each semester focussing on Learning and Teaching and Research excellence, hosted by the Deputy Vice Chancellor (Academic), the Deputy Vice Chancellor (Research) and the Deputy Vice Chancellor and Provost
- a career development seminar each semester
- professional development support in learning and teaching through Griffith Institute for Higher Education.

14.4 The Chair of the Health Group Board and Human Resource Manager (Health Group) will speak to this item.

For discussion

15.0 REVIEW OF ACADEMIC COMMITTEE AND ITS SUB-COMMITTEES

15.1 Academic Committee was reviewed in 2010 to assess its effectiveness and that of its sub-committees in contributing towards assuring the quality of the University’s educational activities and attaining its strategic academic goals.

15.2 Academic Committee seeks the assistance and advice of the Group Boards regarding the recommendations of the review report and proposed implementation plan (see documentation attached).

15.3 Feedback is needed in time for discussion of the report on 9 December and for recommendation to the March 2011 meeting of University Council. If Council approves the recommendations at its March 2011 meeting, the planned implementation timeframe is 1 July 2011.

For discussion

16.0 FOUNDATION YEAR

16.1 The development of a new Health Foundation Year (FY) structure has been stimulated by various factors including the view that more flexibility is desirable and that identified deficiencies in course sequence and content need to be addressed.

16.2 Members of the Executive, Griffith Health have also requested that at least one of the FY courses should provide holistic study of major health issues in our society.

16.3 The proposed model includes six courses that are likely to be considered core for the greater majority of FY students studying the physical sciences in the Faculty, leaving one 10 credit point course per semester available for program-specific choices (see discussion paper attached).
16.4 The new model has been discussed at various levels, but not all with a significant interest have had a chance to contribute. This is a Discussion Paper, and all of the following should be considered in this light. Titles of suggested new courses are descriptive and provisional.

16.5 The Head of the School of Medical Science, Anthony Perkins and Associate Professor Jay Browning, School of Medical Science will speak to this item.

For discussion

17.0 HEALTH GROUP PROGRAM CHANGES

17.1 The program changes processed for the Health Group since the previous Griffith Health Group Board meeting are detailed in Section II of this agenda. All program changes have been considered and approved executively by the Dean (Learning and Teaching). Details of the submissions are contained in Section II of this agenda and all submissions are attached for reference. Members are asked to consider the list of program changes for information and to flag any submissions they wish to bring forward to Section I of this agenda for discussion.

For consideration

SECTION II: MATTERS REQUIRING RATIFICATION OR EXECUTIVE ACTION

18.0 PHM SPECIAL PURPOSE SUBMISSION (2010/0011021) 1242 BACHELOR OF PHARMACEUTICAL SCIENCE

18.1 The Griffith Health Group Board is asked to ratify the executive action of the Dean (Academic) in approving the special purpose submission, effective Semester 1, 2011.

18.2 The Australian Pharmacy Council (APC) has provided feedback to the School of Pharmacy re: the accreditation status of a number of Pharmacy programs. As a result the University has withdrawn the following programs, effective Semester 1, 2011:
   • Master of Clinical Pharmacy (doc no 2010/0011020)
   • Bachelor of Clinical Pharmacy (doc no 2010/0011293)
   • Graduate Diploma of Pharmaceutical Science (doc no. 2010/0011297).

18.3 The School of Pharmacy proposes changes to the Bachelor of Pharmaceutical Science to provide pathways for existing and prospective students from the above programs, as outlined in the submission.

For ratification

19.0 PBH MAJOR CHANGE SUBMISSION (2010/0011025) 1333 BACHELOR OF PUBLIC HEALTH

19.1 The Griffith Health Group Board is asked to ratify the executive action of the Dean (Learning and Teaching) in approving the major change submission proposing to merge the existing Nutrition and Health Promotion majors into one 160CP double award major, effective Semester 1, 2011.

19.2 This double award major will share courses with the Bachelor of Nutrition and Dietetics program where appropriate, maximising exposure of students to broader nutrition expertise within the Health Group, and assuring viable enrolment numbers at course level in both programs.
19.3 The consolidation of the Bachelor of Public Health (BPH) program also strengthens the image of community and public health nutrition as a career path separate and distinct from dietetics.

19.4 Queensland Health, the major employer of (BPH) graduates, has been consulted extensively to ensure graduates will be suitably qualified for employment as Health Promotion Officers, Community Nutritionists and Public Health Nutritionists.

19.5 The Environmental Health and Sustainability major will continue to be offered with some minor course changes and will continue to meet the accreditation requirements of Environmental Health Australia.

For ratification

20.3 The proposed changes to the MMSP structure detailed in this submission incorporate the new Australian Physiotherapy Association (APA) guidelines to provide clearer delineation between the musculoskeletal and sports physiotherapy elements of the program and provide greater scope for clinical placements.

21.3 Student load from this program will be shifted to the Group’s flagship dentistry program, the Bachelor of Oral Health in Dental Science (1259).

### 35.0 2010 ROUND OF TRAVEL FELLOWSHIPS AND WORKSHOP AWARDS

35.1 The Deputy Vice Chancellor (Research) has announced the commencement of the 2010 round of the following Internal Grant Schemes.

**Griffith University Short Term Visiting Research Fellowship (GUSTVRF).** The GUSTVRF scheme is designed to develop collaborations with high quality national and international researchers, leading to applications to external research funding such as ARC Linkage International Awards, or similar. Funding is available to pay for high quality candidates, employed by a foreign organisation, to travel to Griffith University.

**Griffith University International Travel Fellowships (GUITF).** The purpose of this scheme is to provide mid-career Griffith University academics with the opportunity to travel overseas to establish or further develop research links and long term collaborations with colleagues at leading international universities or other high quality research institutions.
Griffith University International Workshop Awards (GUIWA). The GUIWAs are designed to assist Griffith University academic disciplinary leaders to conduct workshops to further develop pre-existing research linkages with colleagues at key international universities or other high quality research institutions. It is expected that such linkages will lead to the development of increased participation in long-term major international collaborations or assist in the development of international research networks.

35.2 Guidelines and application forms are now available at: http://www.griffith.edu.au/research/research-services/research-grants/funding-opportunities/internal-grants.

35.3 The closing date for all three schemes is Monday, 25 October 2010.

For noting

36.0 GRiffith University Research Infrastructure Program

36.1 The Griffith University Research Infrastructure Program (GURIP) aims to assist members of research centres to achieve their research goals by providing support for the procurement of a range of research infrastructure including equipment and facilities. Applications for the 2011 GURIP are now invited.

36.2 The GURIP has the following objectives:

• Encourage research centres to develop collaborative arrangements amongst themselves, across the university and with organisations outside of Griffith University, to develop research infrastructure;

• Enhance support for areas of research strength; and

• Ensure that areas of recognised research potential, in which research centres have taken steps to initiate high quality research activity, have access to the infrastructure support necessary for development.

36.3 The guidelines and application form are now available at: http://www.griffith.edu.au/research/research-services/research-grants/funding-opportunities/internal-grants.

36.4 The closing date for this scheme is Monday, 18 October 2010.
