SECTION I: MATTERS FOR DEBATE AND DECISION

5.0 ENG NEW PROGRAM SUBMISSION 2006/0002539
   1310, 1311 BACHELOR OF ENGINEERING

5.1 The Programs Committee, on the recommendation of the Faculty of Engineering and Information Technology Board 3/2006 (8 June), the Faculty Science Board 3/2006 (8 June) and on the executive recommendation of the Dean of the Faculty Environmental Science (16 June 2006), is asked to consider the attached New Program Submission proposing to establish the Bachelor of Engineering (1310 GC, 1311 NA), as detailed in 2006/0002539, for introduction in semester 1, 2007.
5.2 A Task Force for the Review of Science and Technology Education was established in 2005 to review the academic profile, program and course content, campus profile and teaching and learning strategies in the Group in the context of domestic and international student demand; development in the disciplines; strengths and weaknesses of the Group and market acceptance of the Science & Technology profile. The Task Force recommended a number of initiatives to improve the consistency and quality of teaching practices, improve student retention, expand the number of programs that incorporate work related learning, and better engage key stakeholder groups, such as schools, parents and employers and governments.

5.3 Sub-groups were formed in each of the four foci areas (Science, Information Technology, Environment and Engineering). The sub-group and working groups have recognised the need for a greater concentration of focus and effort in the interests of improving the quality of its programs. It was decided to offer a single Bachelor of Engineering program with a choice of discipline study in Civil Engineering at Gold Coast, Environmental Engineering at Nathan, Software Engineering at Nathan, or Electronic & Computer Engineering at both Gold Coast and Nathan campuses.

5.4 This 320CP Bachelor of Engineering offers students the opportunity to focus on Civil Engineering, Environmental Engineering, Electronic & Computer Engineering or Software Engineering. In Year 1 the program is structured to introduce all students to core courses in Mathematics, Physics and Engineering Practice & Sustainability. In addition, students start their discipline specific studies. In Years 2, 3 and 4 students follow their chosen discipline in Civil Engineering, Environmental Engineering, Electronic & Computer Engineering or Software Engineering and are able to undertake further specialised study in Civil Design, Construction Management or Coastal Engineering within Civil Engineering, or Biomedical Engineering, Communication Engineering, Computer Systems Engineering, Control Systems Engineering or Microelectronic Engineering within Electronic & Computer Engineering. In Year 4 all students undertake an Industrial Affiliates Program that will prepare graduates for a smooth entry into the workforce.

5.5 To be eligible for the award of Bachelor of Engineering (BEng), a student must acquire 320CP as prescribed below:

- gain 60CP for listed and free choice electives
- at least 20 CP of free choice electives must comprise courses in non-science areas
- a total of 60 CP of courses must come from third year level (40CP core courses and a minimum 20CP listed elective)
- No more that 30 CP of courses in which the grade of Pass Conceded (PC) has been attained may be counted towards the degree requirements.

6.5 The minimum English language requirements for entry to this program are:

For approval

7.0 DOH NEW PROGRAM SUBMISSION 2006/0003068
4136 GRADUATE DIPLOMA OF DENTISTRY

7.1 The Programs Committee, on the recommendation of the Griffith Health Board (Faculty) 5/2006 (21 June 2006), is asked to consider the attached New Program Submission proposing to establish the Graduate Diploma of Dentistry (GDipDent, 4136), as detailed in 2006/0003068, for introduction in semester 1 2007.

7.2 The two-year Graduate Diploma in Dentistry is part of the integrated suite of degrees in oral health that will allow graduates professional registration as a Dentist. Completion of both the Bachelor of Oral Health in Dental Science (or equivalent) and the Graduate Diploma of Dentistry are needed for registration under the Queensland Dental Registration Bill, 2001. 7.3 To be eligible for the award of Graduate Diploma of Dentistry, a student must acquire 160 CP as prescribed below:
- Gain 80CP for Year 1 courses, consisting of 70CP of core courses and 10CP of electives; and
- Gain 80CP for courses in Year 2, consisting of 70CP of core courses and 10CP of electives;
- Complete professional experience, clinical experience/placement and other mandatory requirements: courses or components of courses incorporating clinical experience or other mandatory components need to be satisfactorily completed to satisfy degree requirements even though the overall performance would otherwise qualify the student to graduate; and
- The grade of Pass Conceded (PC) will not be awarded in this program.

Recommendation:

7.4 The Programs Committee, on the recommendation of the Griffith Health Board (Faculty) 5/2006 (21 June 2006), is asked to recommend to the Academic Committee the Major Change Submission proposing to establish the Graduate Diploma of Dentistry (GDipDent, 4136), as detailed in 2006/0003068, for introduction in semester 1 2007.

8.1 The Programs Committee, on the recommendation of the Griffith Health Board (Faculty) 5/2006 (21 June 2006), is asked to consider the attached Major Change Submission proposing changes to the Bachelor of Health Science 1093, Bachelor of Biomedical Science 1094, Bachelor of Exercise Science 1171, Bachelor of Exercise Science / B Business Sports Management 1172, Bachelor of Exercise Science / Bachelor of Education 1173, Bachelor of Physiotherapy / B Exercise Science 1174, Bachelor of Exercise Science/Bachelor of Arts in Psychology 1225, Bachelor of Pharmaceutical Science 1242, Bachelor of Oral Health in Dental Science 1259, Bachelor of Oral Health in Dental Technology 1260, Bachelor of Oral Health in Dental Technology Post-Registration 1261, Bachelor of Oral Health in Oral Health Therapy 1262, Continuing Education Certificate in Health Science 9109, Continuing Education Certificate in Exercise Science 9221, Continuing Education Certificate in Anatomy 9222, as detailed in 2006/0003065, for implementation in semester 1 2007.

8.2 The Health Group currently delivers a large number of courses within the disciplines of anatomy, biochemistry and physiology. Given the increasing pressures to meet targets in areas including research publications and grants, the Group commissioned a Discipline Review in 2005 to investigate whether the curricula and teaching across these three disciplines could be enhanced in a way that could remove unnecessary duplication of teaching or convenorship effort and free staff time to pursue other academic work while ensuring that quality teaching outcomes were maintained.

8.3 The Discipline Review of Anatomy, Biochemistry and Physiology courses resulted in endorsement of a recommendation that a common foundation year be developed for all undergraduate programs in the biomedical disciplines. The new common first year will initially only be offered at the Gold Coast campus. There are no changes proposed to degree or admission requirements for any of the affected programs.

Recommendation:

8.4 The Programs Committee, on the recommendation of the Griffith Health Board (Faculty) 5/2006 (21 June 2006), is asked to recommend to the Academic Committee the Major Change Submission proposing changes to the Bachelor of Health Science 1093, Bachelor of Biomedical Science 1094, Bachelor of Exercise Science 1171, Bachelor of Exercise Science / B Business Sports Management 1172, Bachelor of Exercise Science / Bachelor of Education 1173, Bachelor of Physiotherapy / B Exercise Science 1174, Bachelor of Exercise Science/Bachelor of Arts in Psychology 1225, Bachelor of Pharmaceutical Science 1242, Bachelor of Oral Health in Dental Science 1259, Bachelor of Oral Health in Dental Technology 1260, Bachelor of Oral Health in Dental Technology Post-Registration 1261, Bachelor of Oral Health in Oral Health Therapy 1262, Continuing Education Certificate in Health Science 9109, Continuing Education Certificate in Exercise Science 9221, Continuing Education Certificate in Anatomy 9222, as detailed in 2006/0003065, for implementation in semester 1 2007.

9015 CONTINUING EDUCATION CERTIFICATE IN APPLIED PSYCHOLOGY VOCATIONAL

9.1 The Programs Committee, on the recommendation of the Griffith Health Board (Faculty) 5/2006 (21 June 2006), is asked to consider the attached Major Change Submission proposing to establish the Bachelor of Psychological Science 1312, and changes to the Bachelor of Arts in Psychology 1012, Bachelor of Business HRM/Bachelor of Arts in Psychology 1013, Bachelor of Psychology 1014, Bachelor of Business/Bachelor of Behavioural Science 1039, Bachelor of Behavioural Science/Bachelor of Arts in CCJ 1115, Bachelor of Laws/Bachelor of Arts in Psychology 1136, Bachelor of Laws/Bachelor of Behavioural Science 1139, Bachelor of Behavioural Science 1177, Bachelor of Psychology 1178, Bachelor of Exercise Science/Bachelor of Arts in Psychology 1225, Bachelor of Psychology With Honours 2004, Bachelor of Behavioural Science Honours in Work And Public Health 2030, Bachelor of Psychology With Honours 2033, Continuing Education Certificate in Applied Psychology General 9014, Continuing Education Certificate in Applied Psychology Vocational 9015, as detailed in 2006/0003524, for implementation in semester 1 2007.

9.2 The two Schools of Applied Psychology at Griffith University merged on January 1, 2005. The degree programs and majors offered on the two campuses differed in a number of ways, and the new School of Psychology was required to develop new programs at all levels to achieve consistency between the two campuses. This merger coincided with the reaccreditation of the programs by the Australian Psychological Society (APS). Feedback from the site visit to each campus by the APS was generally positive, indicating that the current programs were meeting the requirements for Psychology undergraduate degrees.

9.3 In accordance with APAC (Australian Psychology Accreditation Council) accreditation advice and University Cross Campus Consistency Guidelines, the following changes are proposed:

Programs:
- Change the titles of the Bachelor of Behavioural Science and Bachelor of Arts in Psychology (single and double degrees) to the Bachelor of Psychological Science; exceptions are (1177) B Behavioural Science and (2030) B Behavioural Science with Honours in Work and Public Health.
- Change the title of the Bachelor of Psychology with Honours (2004 and 2033) to the Bachelor of Psychological Science (Honours).
- Introduce a new three-year program (1312) Bachelor of Psychological Science at the Mt Gravatt campus, from Semester 1, 2007. This new program will be an identical offering to (1012) Bachelor of Psychological Science, Gold Coast campus. The new program at the Mt Gravatt campus will not offer any majors, unlike the three-year degree program currently offered at Mt Gravatt campus, (1177) Bachelor of Behavioural Science.
- There will be no new intake into (1177) Bachelor of Behavioural Science, Mt Gravatt campus from Semester 1, 2007. Students currently enrolled in (1177) Bachelor of
Behavioural Science will have the option of remaining in this program or transferring to the new (1312) Bachelor of Psychological Science. The non-psychology majors in Disability Studies, and Work & Health, currently offered in the Bachelor of Behavioural Science will continue to be offered to facilitate students’ progress through their majors, should they elect to remain in the Bachelor of Behavioural Science program. Students who elect to transfer to the new (1312) Bachelor of Psychological Science program will do so on the clear understanding that the new program does not include majors and they will be unable to complete a major in the new program.

Courses:
- The ordering of courses, including semester of offering and course codes, will change in all programs to enhance student learning and be consistent across campuses.
- A new first year course ‘Introduction to Psychological Science and Society’ will be introduced. This course includes new material to meet APAC requirements as well as develop critical thinking skills in students.
- Biological Psychology, currently an elective course in Mt Gravatt programs and a core course in Gold Coast programs, will become a core course in both Mt Gravatt and Gold Coast programs.
- Abnormal Psychology will replace Counselling Psychology in the core sequence.
- The School will no longer offer courses with minimal psychology content. Understanding Australian Society, Training & (Skills) Development and Advanced Training & Development will no longer be offered by the School.
- An increase in the number of free choice electives that a student may undertake will enable students to complete a wider range of courses outside Psychology and will fulfill minimum degree requirements.
- New Psychology electives will be offered at both campuses.
- To facilitate undergraduate course additions, 30CP of core courses will be withdrawn from the Mt Gravatt based programs and 20CP of core courses will be withdrawn from the Gold Coast based programs.
- Honours level changes include new courses in Issues in Professional Psychology and Issues in Quantitative Research to be offered on both campuses as core courses. Elective choices will be rationalised.

15.2 During 2005 the GBS undertook a review of its postgraduate programs, and programs then offered by the Department of Tourism, Leisure, Hotel and Sport Management were combined to offer one program with three areas of professional practice – Event Management, Sport Management, International Tourism and Hospitality Management. These three specialisations were listed under the 80CP Master of Business program, to be offered in 2006.

15.3 Market demand for the some of the revised postgraduate programs indicated that they were not popular. A review of the programs in early 2006 by the GBS Executive revealed that negative ‘packaging’ aspects of some of the GBS’s programs, a lack of marketing, and a failure of the Griffith University People Soft system to provide specific sub program listings were likely to be largely responsible for the lower level of interest shown by students.

15.4 As a response to these market signals but in keeping with continuous improvement that addresses international accreditation quality concerns, changes are proposed to the structure of the program as detailed in the attached submission.

15.5 Graduate Certificate in Business 3177/3178

15.5.1 The Griffith Business School proposes to introduce a new Graduate Certificate in Business. 16.2 The Master of Asian Studies and Master of International Relations, both 80CP programs, were withdrawn as a result of the 2005 review of the GBS postgraduate program profile. The two programs were combined, resulting in the offering of a new 120CP program, the Master of Arts (Asian and International Studies).

16.3 A review by the GBS Executive has revealed the new program has been unsuccessful in attracting students. Enrolments for the degree totalled 8 commencing students in first semester 2006, compared with 30 students in the previous specialist degrees in 2005. As a result it has been decided to re-establish the Master of Asian Studies and Master of International Relations as separate niche programs. The reinstatement of the Master of International Relations is premised on the view that there is a substantial and growing interest in International Relations.

16.4.1 It is recommended that the Asian and International Studies suite be withdrawn from offer for Semester 1, 2007 and that specialist programs be reinstated to address the needs of its target market.

16.5 Graduate Certificate in International Relations 3141, Master of International Relations 5211

3186 GRADUATE CERTIFICATE IN INTERNATIONAL BUSINESS ADMINISTRATION
5458 INTERNATIONAL MASTER OF BUSINESS ADMINISTRATION (120CP)
5457 INTERNATIONAL MASTER OF BUSINESS ADMINISTRATION (160CP)
INCORPORATING PROGRAM WITHDRAWAL FOR:
5448/5449 MASTER OF BUSINESS ADMINISTRATION (PRACTICUM)

18.1 The Programs Committee, on the recommendation of the Griffith Business School Board (June 2006), is asked to consider the attached Major Change Submission proposing changes to the Graduate Certificate in International Business Administration 3186, International Master of Business Administration (120CP) 5458, International Master of Business Administration (160CP) 5457, and to withdraw the Master of Business Administration (Practicum) 5448/5449, as detailed in 2006/0007304, from semester 1 2007.

18.2 As a result of the review of GBS postgraduate program profile in 2005 programs then offered by the Graduate School of Management were changed to accommodate requirements in order to meet accreditation and market needs. The Master of Business Administration program was lengthened to 160CP from its historical 120CP and the
Master of Business Administration (International) program (120CP), which was only offered on the Gold Coast campus, was withdrawn and replaced by the Master of Business Administration (Practicum) program (160CP) offered on both the South Bank and Gold Coast campuses.

18.3 Enrolments for the first intake were lower than anticipated compared to previous enrolments in Masters programs. It is therefore proposed to restructure the MBA (Practicum) to adopt international program terminology and offer more differentiation from the existing MBA. 18.4 Master of Business Administration with Honours 5164/5165

18.4.1 The GBS believes that the introduction of the International Master of Business Administration program will attract a high number of international students, and will provide a competitive advantage in the postgraduate business market. Students will be provided with a flexible program offering a number of learning pathways whilst at the same time, providing domestic students with exposure to an international business experience. Therefore it is proposed to withdraw the Master of Business Administration (Practicum) program.

25.2 In 2003, the Department of Politics and Public Policy and the China University of Political Science & Law entered into a three year agreement regarding the provision of a joint program, the Master of Arts in Administration. This was a ten-course program focused on Australian and International public administration, with six courses to be completed in China and 4 courses to be completed at Griffith.

25.3 This program was placed under review in semester I 2006. As a result of the review, it was determined that the program was not viable for the GBS at the present time. This was attributed to the current global economy and the potential implications of both the FTA and appreciation of the AU$, changes in the program structure which moved all courses to China, a change in available teaching resources within the GBS, and the approaching date of cessation of the agreement in September 2006.
