**SUPPLEMENTARY AGENDA**

**SECTION I: MATTERS FOR DEBATE AND DECISION**

16.0a **BACHELOR OF SCIENCE REVIEW**

16.1a The BSc program in the Griffith School of Environment underwent a scheduled 5 year review in 2010 across both campuses. The BSc program in the School of Biomolecular and Physical Sciences at Nathan underwent a scheduled 5-year review in 2011. The BPS Review Report (March 2012) recommended ‘That SEET investigate the development and implementation of a common BSc program across the Nathan and Gold Coast campuses with common entry requirements including Maths B as a prerequisite’.

16.2a A Working Party, chaired by the Dean (Learning and Teaching), was established in April 2012 to pursue this recommendation, with a view to implementing a common program from 2014. In July 2012, as part of this process, the Pro-Vice-Chancellor appointed Emeritus Professor Andrew Lister as an external advisor to assist the review process and to provide recommendations from an external viewpoint. Using Professor Lister’s report as the framework, the Working Party is currently finalising the BSc Review Report. When completed, the final BSc Review Report will be circulated to members by flying minute.

16.3a At this meeting of Group Board, members are asked to discuss the establishment of an implementation group to take forward the recommendations of the BSc Review.

For discussion
